You Can Heal Your Life

This entertaining and inspirational movie based on the best-selling book of the same name is hosted by author and teacher Louise L Hay. This film gives penetrating insights into Louise's fascinating personal story and shows her views on self-esteem, abundance and the metaphysical causes behind physical ailments were developed. It also reveals how she applies these concepts to her own emotional, spiritual, and professional life. The Shift

In this compelling film Dr. Wayne W Dyer explores the spiritual Journey from ambition to meaning. The powerful shift from the EGO constructs that we're taught early in life by *parents and society* - which promote achievement and accumulation-are shown in contrast to a life of meaning , focused on serving and giving back. Through the intertwined stories of an achieving business man, a mother of two seeking her own expression in the world, and a director trying to make a name for himself, this entertaining film not only inspires, but also teaches us how to create a life of meaning and purpose.
